

13.12.300 Use of storm sewers

13.12.300 – Use of storm sewers

Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers, or to an outlet approved by the Director of Public Works. Industrial cooling water or unpolluted water may be discharged, upon approval of the Director of Public Works, to a storm sewer, or natural outlet, subject however, to the delivery of a copy of all necessary State and Federal Permits to the Director of Public Works.
